

## What would my preferred AI future look like?

### DISCOVER

- Explore different types of existing AI
- Determine an AI area of interest
- Research emerging technologies that use AI
- Do a case study of a specific AI application/system including: purpose and target audience, and components: hardware, software, personnel
- Analyse social and ethical implications of AI
- Choose one or more Marvel universe characters who can best develop/use this AI

### CREATE

- A **plausible** plan of a preferred AI future; use multimedia to best represent the idea - pretend this AI future is real...in the Marvel universe
- Justification for the plan including annotated bibliography

### SHARE

- Artefacts to be showcased online, at the library, and at the Learning Festival
- Present plan to class, possibly a panel audience
